April 2017

The Big Pedal - Scoot

As you are aware we took part in this great event during March. Our results are amazing - 1,693 schools took part and we came 86th in the country! We came 14th for the East of England and 3rd in Hertfordshire. Thank you for all your efforts and I hope it has encouraged many of you to continue using bikes/scooters for the school run.

Keep it Clean - Clean Air Day

You may have seen a lot in the press about air pollution lately. This is becoming a big concern especially around schools. On the 16th June 2017 (which is also our Green Day) we will be promoting Clean Air Day. A leaflet will be sent home shortly with some facts and the message is clear - Don't leave cars idling or ticking over. There is also an activity on the leaflet which we would like all children to complete and bring in their pledge cloud for a display. Thank you

Green Day

This year Green Day will be held on Friday 16th June to coincide with Clean Air Day. As usual we will have no power on that day and the children are invited to come into school wearing something green. Lots of fantastic activities will be planned and we will ask each child to bring in an item of old clothing that can be upcycled! Our day will end with a Fashion Show for the children.

As it is also 'Clean Air Day' we will be asking that all children and adults walk, bike or scoot to school and back again. If you live further away and need to drive please park nearer the common and walk.
