I moved to Redbourn from Harrogate in 2011 with my husband and 2 children. I am a secondary school teacher at St Albans School - my primary subject is Maths and I am also responsible for STEM provision. Teaching is a vocation which I love.

I have worked with the Infants School through the Partnership scheme for 5 years now and love the very different challenge of working with the younger children. I am appointed as a Co-opted governor and am Chair of the Curriculum Committee with specific focus on Maths.

**George Sevier**

I am an LEA Governor and have 4 children who have all enjoyed the benefits of the Infant school. Like many parents, I keep busy running our business, Redbourn Auto Solutions and working on various community and business projects in the village.

I have the exciting challenge of leading the Governing Body as Chair, and attend the Resources and Curriculum Committees.

It is a privilege to be part of such an experienced and dedicated team of people aiming to achieve the best for our children.
